the first book on christian apologetics written by a leading atheist figure that teaches christians the best and worst arguments for defending their faith against attack the christian faith has been

vigorously defended with a variety of philosophical historical and theological arguments but many of the arguments used in an earlier age no longer resonate in today's educated west where apologetics has gone wrong what is the best response to the growing challenge presented by scientific discovery and naturalistic thought unlike every work on christian apologetics that has come before how to defend the christian faith is the first one written by an atheist for christians as a former christian defender who is now a leading atheist thinker john loftus answers these questions and more he tells would be apologists how to train properly where to study what to study what issues they should concern themselves with and how poorly the professors who currently train them practice their craft in the process he shows readers why christian apologists have failed to reach the intelligent nonbeliever for those christian apologists who think this book will provide a secret formula to convert the nonbelieving masses be warned as an exposé of the present state of christian apologetics it can just as easily be used by atheists to refute apologetic arguments thus this book presents both an opportunity and a challenge to christians they must either change how apologetics is done or quit doing apologetics altogether

the first book on christian apologetics written by a leading atheist figure that teaches christians the best and worst arguments for defending their faith against attack the christian faith has been vigorously defended with a variety of philosophical historical and theological arguments but many of the arguments that worked in an earlier age no longer resonate in today's educated west where apologetics has gone wrong what is the best response to the growing challenge presented by scientific discovery and naturalistic thought unlike every work on christian apologetics that has come before how to defend the christian faith is the first one written by an atheist for christians as a former christian defender who is now a leading atheist thinker john loftus answers these questions and more he shows readers why christian apologists have failed to reach the intelligent nonbeliever and offers practical advice for christians whether they want to better defend their faith against atheist arguments or actively convert more individuals to christianity

the book you are holding in your hands is perhaps the simplest most straightforward summary and how to guide for presuppositional apologetics now in print it is both informative and practically helpful i believe you will find it an extremely useful tool whether you are an professor at the seminary level seeking supplemental reading material or just a simple lay person looking for practical answers pastor mcmanis writes with crisp clarity in a way that is certain to give you

fresh insight into what scripture teaches about the defense of the christian faith i wish this book had been available when i was studying apologetics in seminary john macarthur pastor teacher grace community church president of the masters college and seminary cliff has rescued the discipline from the elite circle of the intelligentsia and returned it as a biblical theology of truth communication to the common people i e to all believers this volume will be of great help in the restoration of the practicality of biblical apologetics as it was exemplified in the early church hopefully todays readers will be able to understand and put into practice the true nature of peters command in 1 peter 3 15 as it is strategically situated in its defining context george j zemek academic dean the expositors seminary jupiter florida

when defending the faith it is not sufficient to merely go after a few surface issues the real battle goes much deeper the defender of the historic christian faith must blast deep into the foundations of the enemy s worldview by exposing and destroying his presuppositions the battle for truth cannot be won apart from destroying the false presuppositions held by those who reject the gospel

examine the roots and practicality of biblical and modern apologetics with the guidance of five experts and learn to apply their best practices to your own journey god has called christians to be prepared to defend their hope in christ but what s the best method for making this defense in this book five expert apologists set out together to determine which approach to apologetics is the most faithful to scripture and the most useful in a secular age in this fast paced and thorough exploration enjoy learning solid scriptural defenses for the use of apologetics five different approaches to apologetics and how to employ them and much more understanding apologetics presents in counterpoint form five popular approaches to the defense of the christian faith that have developed throughout history from the early days of christianity through to our practices today apologetics philosophies explored here include cultural apologetics presuppositional apologetics evidential apologetics classical apologetics ecclesial apologetics about the contributors these defenses are much more than academic each contributor is a scholar who also practices apologetics daily the result is a thorough yet fast paced and practical guide to defending your faith melissa cain travis phd faulkner university argues that classical apologetics is still vital and relevant today sean mcdowell phd the southern baptist theological seminary contends that evidential apologetics is better suited than other methods when it comes to answering people s doubts about the christian faith james n anderson phd university of edinburgh focuses on epistemology and makes the

case for presuppositional apologetics d a horton phd southeastern baptist theological seminary suggests the other perspectives are incomplete until they include cultural apologetics timothy paul jones phd the southern baptist theological seminary retrieves the apologetics methods of the early church and recontextualizes these ancient arguments to meet the challenges of a secular age

we are often reminded that we live in a post christian culture but most christians fail to realize that we are losing the culture war in america today because we have essentially forfeited the intellectual war ideas have consequences and history has shown that what is intellectually respectable becomes over time socially acceptable and culturally normative many evangelical churches emphasize theology those core biblical doctrines that christians traditionally have believed but few emphasize apologetics why it is reasonable and defensible to believe these things the case for christian apologetics presents the reasons why apologetics is so vitally essential today and why christians should study to be prepared so as to effectively explain and defend the unique truth claims of the christian faith now more than ever christians need to tune in turn on and engage the great spiritual moral and intellectual issues of our day so as to fulfill our calling as a source of light and truth in a society and culture that is becoming increasingly biblically illiterate and spiritually dark regrettably anti intellectualism is not only a pervasive problem among non christians many christians also have an anti intellectual orientation that limits their understanding of the faith and the credibility of their testimony of all people christians should be the most thoughtful the most inquisitive and the most creative as we strive to fulfill what jesus declared to be the greatest of all commandments to love honor and serve god with all our heart soul mind and strength and to love others as we love ourselves

defending the christian faith by demonstrating its reality relational apologetics is about your life becoming a defense of the christian faith every relationship you have is an opportunity for you to connect people to their creator by displaying your hope both in word and deed defending your faith is not just about answering questions and proving that god exists it is about showing that he is real by the way you live it is about demonstrating the power of god through your holiness and it is about drawing people to jesus through your kindness using stories and drawing on personal experiences sherrard teaches the importance of holiness treating skeptics with respect engaging in authentic conversations instead of shouting matches and having well thought out answers to the skeptic s questions the book doesn t delve deeply into the scientific and philosophical arguments for the existence of god and

the validity of christianity rather it provides solid simple and easily remembered reasons why one should believe it also teaches essential relational skills that are necessary for talking to skeptics and maintaining healthy relationships with them

is it still possible in an age of religious and cultural pluralism to engage in christian apologetics how can one urge one's faith on others when such a gesture is typically regarded with suspicion if not outright resentment in humble apologetics john g stackhouse brings his wide experience as a historian philosopher journalist and theologian to these important questions and offers surprising and reassuring answers stackhouse begins by acknowledging the real impediments to christian testimony in north america today and to other faiths in modern societies around the world he shows how pluralism postmodernism skepticism and a host of other factors create a cultural milieu resistant to the christian message and he shows how the arrogance or dogmatism of apologists themselves can alienate rather than attract potential converts indeed stackhouse argues that the crucial experience of conversion cannot be compelled all the apologist can do is lead another to the point where an actual encounter with jesus can take place finally he shows how displaying an attitude of humility instead of merely trying to win religious arguments will help believers offer their neighbors the gift of christ's love drawing on the author's personal experience and written with an engaging directness and an unassuming nature humble apologetics provides sound guidance on how to share christian faith in a postmodern world

many are expressing concern about the future of christian youth today what can we do to help ensure they will keep their evangelical faith once they graduate from high school can christian apologetics provide an educational solution developing a christian apologetics educational program explores issues certain to be encountered by secondary school educators who want to teach apologetics as a distinct subject of study either as a part of a christian institutional or home school curriculum this book helps the apologist and educator blend their skills to soundly integrate the two subjects a solution is sought by providing a background and rationale for implementing an age level appropriate apologetics course at this critical level of christian education this book is designed as a text to supplement those used in christian education or applied apologetics courses each chapter successively builds upon the other to help develop an educational philosophy that supports the inclusion of apologetics in the curriculum a model is explained and materials are given to support the development of a curriculum in christian apologetics education at the secondary level practical ideas

are explored and a sample unit of instruction is supplied to help the educator develop an evangelical approach to education that is in the classical apologetic tradition

this study will be an educational course on the disciplines of christian doctrines the results showed that the degree of understanding sound doctrine between pastors ministers and laypersons plays a major role in the level of common participation in teaching and preaching god s word this book course will utilize an exploratory mixed method research and design to gather analyze and compare unsound teachings to what is established by the christian church the study allows for conclusions and recommendations on how to have a common participation in the gospel message of god between ordained and nonordained

faith s defenders the christian apologetic mission offers a comprehensive exploration of the crucial role of apologetics in the christian church it examines the foundational beliefs historical challenges and modern day threats to christianity while providing a detailed overview of apologetics from early christianity to the present the book emphasizes the need for respectful and intellectually rigorous strategies to engage with contemporary culture address doubts and reinvigorate faith drawing on insights from renowned defenders of the faith it highlights the importance of apologetics in strengthening the church s witness and fostering meaningful dialogue making a compelling call for the church to present the gospel with confidence clarity and compassion you can find the paperback version on amazon amzn to 4jisdjr

apologetics what is that isn t that for theologians and pastors these are the rebuttals one might receive when encouraging christians to learn and engage in apologetics the defense of the christian faith this book isn t about apologetics per se instead it reviews the many benefits for christians engaging in apologetics and learning about it dr almodovar reviews what aspects of the field helped strengthen her own faith and brought excitement in bringing the good news of the forgiveness of sins through jesus christ as she spoke with those who aren t christians over the past years dr almodovar has actively engaged in encouraging christians to actually do apologetics and many have come back to her saying it not only helped them answer the questions of non believers but strengthened their own faith knowing now the great amount of evidence there is for the christian religion if you ve never engaged in defending the faith now is the time to learn how it will benefit you in your walk with christ and perhaps excite you to dig a little deeper so you too can answer their questions about jesus his life death and resurrection

for the forgiveness of all our sins

a most accessible but thoroughly practical primer on apologetics

editors gavin mcgrath and w c campbell jack with consulting editor c stephen evans offer this one volume resource packed with hundreds of articles on key topics historic figures and contemporary global issues relating to the study and practice of christian apologetics
